System Configuration Diagram

- For detailed specifications, please read the description for the stage and connecting cable on page E1 ~ E2.
- For selection of driver, please refer to the cross-reference table on page E3 for the motor/driver of the precision motorized stage or the GMT motor and driver catalog.
- The most preferred driver is recommended to be specified by GMT as considerations. For different needs, please choose the suitable driver based on real functional needs.

Warranty Instructions & Troubleshooting Suggestions

- Within warranty period, if any of the following failures occurs, our company will be responsible for the repair.

- Warranty period is one year, starting from the time the product is delivered to the designated place.

- If anything below occurs, it will not be covered under warranty:
  1. Failure that occurs when the product is not used in specified environment and method.
  2. Failure that occurs when the product is modified or repaired without authorization.
  3. Failure that occurs due to natural disaster or misuse.
  4. Fault or damage after customer purchase due to fall or impact during shipping or movement.
  5. Malfunction or damage due to connection to other machine.
  6. Violation to the above instructions and precautions on the manual will cause malfunction or damage.

- After the motor or mechanism is hit by external force, please check whether screw function affects stage.

- Please do not arbitrarily adjust left and right limit position and origin position to prevent machine collision and loss of warranty.

- Limit switch must have secured wires and receptacles and be prevented from loosening.

- Do not arbitrarily loosen coupling and transmission structure to assure precision and warranty.

- When unusual noise or vibration occurs in the operation of machine, please turn off power before inspection.

- For Q&A regarding stage, please check GMT website.
